

Second-Chance Mentoring (Part 1)

The National Science Foundation's Advanced Technological Education (ATE) Program encourages prospective grantees to rework and resubmit proposals that were declined when initially submitted. Mentor-Connect supports this proposal re-submission process by offering Second-Chance Mentoring.

Eligible colleges include:

- (1) those whose first proposal to the ATE Track 1 or Track 2 was declined, and
- (2) those who worked with a mentor to prepare an ATE Project proposal that was submitted but not funded (declined).

This service is available at no cost to the colleges accepted for Second-Chance Mentoring.

This on-line application may be submitted at any time within two years after the date on which a proposal was declined and by April 1 of the year in which the revised proposal will be submitted. (This due date will be extended to May 1 if the proposal was declined during the month of April.)

Mentor-Connect will provide mentoring by email and telephone conferences for proposals that meet the following criteria:

- The purpose of the original proposal is still valid and it remains essentially the same in the revised proposal.
- The college administration is willing to resubmit the proposal.
- The PI, a Co-PI or another member of the senior personnel in the declined proposal will serve as the PI of the revised proposal.
- The proposal received reviewer ratings that are mainly "Good" or higher.

The application will include a copy of the declined proposal, as originally submitted, and the reviewer comments generated during the proposal review process.

Mentoring for reworking/resubmitting a proposal will consist of approximately fifteen hours of support from a mentor who will:

- Study the declined proposal and the reviewer comments.
- Discuss proposed revisions with the PI, Co-PIs, and grant writer.

- Be available for questions by phone and email.
- Provide advice as the proposal is revised.
- Review the submission-ready proposal, no later than two weeks before the deadline.

Those receiving mentoring services will be expected to participate fully in this activity the evaluation of this activity by providing Mentor-Connect with copies of the new proposal and the panel reviews and by participating in surveys and/or individual interviews.

* After completing (Part 1) of your application, please email all the required material (Part 2) to mentor-connect@fdtc.edu.

* Indicates required question

1. Email *

Submitter Name, Telephone Number, and Date of Submission

2. Submitter Name *

3. Telephone Number *

4. Date of Submission *

Example: January 7, 2019

College Name and Address

5. College Name *

6. College Address *

7. Disciplinary focus *

8. How did you become aware of the Mentor-Connect Second Chance opportunity? *

Mark only one oval.

- Participant of Mentor-Connect
- Colleague
- Constant Contact email
- Social Media
- Other

9. If you participated in Mentor-Connect, please list the cohort number and date project was declined *

10. ATE program to which the proposal will be submitted *

Check all that apply.

Track 1 Small Scale Projects

Track 2 Projects

Name, email, and phone numbers (including cell) of PI, Co-PIs and grant writer of the revised proposal

11. Name *

12. Email *

13. Phone Numbers (including cell)

Name, email, and phone numbers (including cell) of PI and grant writer of the declined proposal, if different

14. Name *

15. Email Address *

16. Phone Numbers (including cell) *

17. Date on which proposal was declined *

Example: January 7, 2019

18. An explanation of any changes in senior personnel *

A written response from the PI to each of the questions below. The response to each question has a 250 word limit.

19. What is your opinion of what needs to be done to make the proposal more competitive and fundable? *

20. Why is the proposed project still important and relevant? *

21. Please acknowledge that you will email a complete copy of the declined proposal. *

22. Please acknowledge that you will email a complete copy of the report from NSF Review Panel.
